PAV
EAU

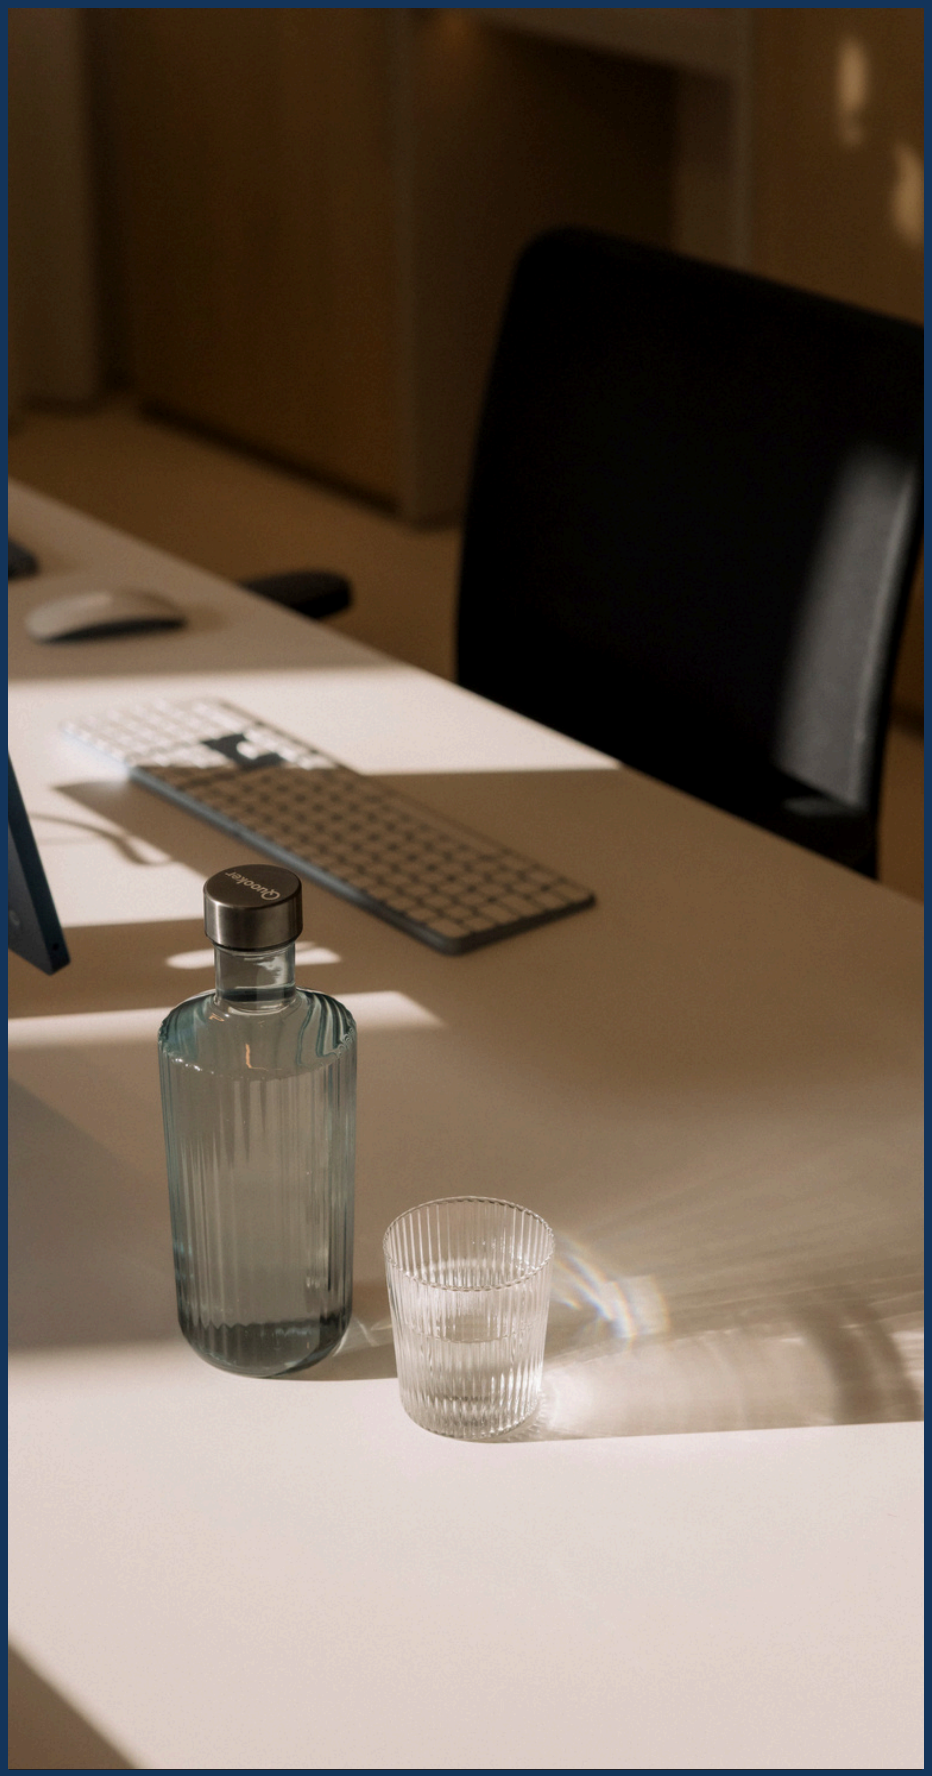
THE STORY *OF PAVEAU*

Paveau began with a simple choice. Isabelle – the brand's founder – decided to switch to tap water at home, but finding a reusable bottle that was both elegant and practical proved impossible. With the introduction of Paveau, she filled that gap. The reusable glass bottles blend timeless design with eco-conscious thinking. What started as a personal solution found its way into homes worldwide.

Today, Paveau takes the next step – bringing that same refined experience to the world of hospitality.

Designed to bring colourful elegance to every setting, our reusable glass bottle elevates serving tap water to a whole new experience. Made in Europe from borosilicate glass, it is strong yet lightweight. Customisable to reflect your brand and built to last, service after service. With Paveau glassware, tap water takes its rightful place at any table.

Choosing Paveau is a simple yet powerful commitment to your guests and to the future. Because even the way you serve water can reflect your standards.



DESIGNED FOR *PROFESSIONALS*

MAKE IT YOURS
Add your logo to the cap for a personal touch and choose which of the 3 colours fits your brand best.
